The Penance.

A priest was hearing confession, and a boy came te him and said he had a bad sin on his mind.

"Well, me good boy, come on wid it," said his reverence.

"Augh, den, your riverence, I do be always sayin' 'Be the Holy Father.'"

"You do?—that's very bad, me boy. Now, how often do you be saying that?"

"Begor, more than forty times a day, your riverence."

"Go home now," said the priest, "and get your sister to make you a bag and hang it round your neck, and every time you say 'Be the Holy Father,' drop a little stone in it, and come to me this day week."

That day week his reverence was as usual in his box, and he heard an awful noise in the church, so he looked out and saw his penitent dragging a sack.

"Tady Mulloy," says he; "what do you mean by such conduct as that in the church?"

"Sbure, yer riverence," says the fellow, "dose is all 'Be deHoly Fathers,' an' de rest of um's outside on the dray.

—The body of Henry Shaffer, a cattle dealer, was found in the woods in West Deer Creek township, Pa., last Friday morning, the head crushed out of all shape, the pockets rifled and a portion of the clothing carried away. Henry Leukner, a partner of the deceased, was arrested on suspicion of having committed the deed.

PROTECT YOUR BUILDINGS

Which may be done with one-fourth the usual expense, by using our

PATENT SLATE PAINT,

MIXED READY FOR USE.

Fire-proof, Water-proof, Durable, Economical, and Ornamental.

A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than new shingles without the slate, for

One-Third the Cost of Reshingling.

The expense of slating new shingles is only about the cost of simply laying them. The paint is FIRE-PROOF against sparks or flying embers, as may be easily tested by any one.

IT STOPS EVERY LEAK,

and for tin or iron has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS nor scales. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense, and preserved for many years.

This Slate Paint is

EXTREMELY CHEAP.

Two gallons will cover a hundred square feet of shingle roof, while on tin iron, felt, matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the Paint has a heavy body it is easily applied with a brush.

No Tar is used in this Composition,

therefore it neither cracks in Winter, nor runs in Summer.

On decayed shingles it fills up the holes and pores, and gives a new substantial roof that will last for years. CURLED or WARPED shingles it brings to their places, and keeps them their. It fills up all holes in Felt roofs, stops the leaks—and although a slow dryer, rain does not effect it a few hours after applying. As nearly all paints that are black contain TAR, be sure you obtain our GENUINE article, which (for shingle roofs) is

CHOCOLATE COLOR,

when first applied, changing in about a month to a uniform slate color, and is to all intents and purpose SLATE. Or

TIN ROOFS.

our red color is usually preferred as one coat is equal to five of any ordinary paint. For

BRICK WALLS

our BRIGHT RED is the only reliable Slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster.

These paints are also largely used on out-house, and fences, or as a priming coat on fine buildings.

Our only colors are CHOCOLATE, RED, BRIGHT RED, and ORANGE.
